leetcode Redhills,chennai

Passionate and performance-driven Full Stack Developer with 1+ year of experience in building scalable, reusable web applications using Angular, Node.js, MongoDB, JavaScript, and TypeScript. Solved 100+ problems on LeetCode, demonstrating strong problem-solving and algorithmic skills. Experienced in clean code practices, test automation, and scalable architecture. Strong foundation in Data Structures, Algorithms, Object-Oriented Design, and design patterns.Proven ability to work in agile environments, own features end-to-end, and write high-quality maintainable code

EXPERIENCE

Full Stack Developer, Upturn Technology 05/2024 – 05/2025 | Chennai

Tech Stack: Angular, Node.js, Express.js, MongoDB

- **ERP SaaS Platform**: Followed best practices in code reviews, unit testing, and performance optimization while collaborating with product owners for full-cycle delivery from design to deployment.
- **Asset Management System**: Developed AMC and calibration tracking features, reducing manual tracking by 40% and improving preventive maintenance scheduling.
- **Hostel Management System**: Built Report Module for check-in/out tracking and occupancy stats. Added recurring billing, complaint ticketing, and admin content management features.
- **TaxStuff Platform**:Developed scalable Client and Employee CRUD modules using Angular, enhancing admin workflow efficiency by 25%. Implemented invoicing features and robust role-based access control (RBAC). Built a task tracking system and real-time in-app chat to streamline team communication and accountability.

TECHNICAL SKILL

Programming Languages
Java, JavaScript, TypeScript

Backend
Node.js, Express.js, API Development

Databases
MongoDB

Testing & Quality Assurance
Unit Testing,Cypress

Other:
REST APIs, JWT Authentication, Agile Methodology,REST API Security Best Practices,Performance Optimization

Frontend
Angular, HTML, CSS, Bootstrap,Component-based Architecture

DevOps & Tools
Git, Postman, BitBucket,IDE (e.g., IntelliJ, VS Code)

Cloud
Microservices, cloud deployment, Aws(EC2,SES),Nginx

Computer Science Fundamentals
Data Structures, Algorithms, Object-Oriented Design,Design Patterns

COURSE WORKS

Nameste NodeJs, Nameste Dev
2025

JavaScript Zero to Hero, GUVI
2024

Java Basics, Greatlearning
2023

EDUCATION

B.sc in Computer Science,
Ambedkar Government Arts College
2021 – 2024
